EASTERN NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

He Addresses the United States

October 1—A New Orleans special gives a four-column address to the United States from ex-Gov Kellogg to-day. It is an elaborate defense of his administration from all charges of fraud, and is full of statistics to prove that the taxation of 1873 was but little more than that of the preceding year, and that the rate of taxation for 1874 is actually less than that of the preceding year. The assessment has been reduced the state debt by $600 000 in two years, and the rate of taxation one half. He says the Republican party in Louisiana is willing to be judged by the verdict of the coming election, and he appeals to Northern Republicans to denounce at once any of his acts which can be shown in mind that they come from the true Republican principles every where. He says he is willingness to resign if it was simply a matter but believes there is a principle involved which makes it his duty to remain.

Weakness.

The consequence of secret vice, or depraved solitary habits indulged in by the youth of both sexes is manifested in many who are unconscious of the cause producing with wonderful rapidity the following symptoms of morbid anatomy, dimness of sight, defective memory, pimples on the face, aversion to society, blushing, nervousness, nightsweats, confusion of ideas, dizziness, sexual debility, and finally consumption or insanity. Relief is not only possible but certain, if the unfortunate victim will place himself under the treatment of a physician who has had experience in these diseases. Be therefore careful in choosing a physician, or you may add insult to injury.

Pinch." Pinched.

New York, October 1—A New Orleans dispatch says the Republican State Central Committee has agreed to the compromise effected by the Conference Committee. Pinchback opposed the ratification, but was largely outvoted. The Democratic State Committee will meet to consider the matter.

Like National Beings.

Baltimore, October 1.—The Republican Convention of the Fifth Parish will be held October 14th. The Republican State Central Committee last evening ratified the conference agreement with an amendment that in case of a vacancy from death or resignation a Republican member of the retiring Board of Police should be exacted that a Republican Committee should be appointed by the Republican Committee—the same rule to apply to the Democratic Board. The Conservative Committee met this morning, but took no action on the agreement of the Republicans.

Pacific Mail Vessel in Trouble.

October 1—The P M S S Co have received a telegram stating that the new iron steamer Hongkong was ashore on a mud bank, but was not leaking or leaking. The dispatch says that she will come off at the high water. Another dispatch from Hongkong says that in the typhoon of the 21st the steamer was blown ashore and is now on her beam ends. It is hoped that she may be got off. The vessel is insured for $500 000.

Railway Casualty

Sept 30—A collision occurred to-day on the Lehigh Valley Railroad east of New York, between the mail train going east, and a freight train going west. James Eaker, engineer of the mail train, and a passenger named Moore were killed. Henry Wertz the fireman was fatally injured, and J M Wagner, a master John Rowa newsboy and a Harrison passenger were seriously injured. The baggage car containing baggage mail and express matter was burned.

Murder and Attempt at Suicide.

Sept 30—Mrs. Julia Perkins of this city cut the throat of her infant daughter and then attempted to kill herself in the same manner. Domestic trouble is the alleged cause.

Condemned to be Hanged.

Sept 30—Louis Wagner the Isle of Shoals murderer is sentenced to be hanged the last Friday in October by the verdict of the coming jury. The Governor of Maine has legally the right to carry out the recommendation of the jury.

Arrived Safe.

Sept 30—The missing steamer City of Boston, of the International line arrived here this morning. She put into Machias and Penobscot to coal.

The Indian Expedition.

Sept. 30—Buffalo Bill one of the scouts who accompanied the expedition commanded by Gen Carr arrived at Rawlings yesterday. All are well at Saratoga. No Indians were in sight.

Fire at Saratoga.

Sept 30—About 11 o clock this morning a fire broke out in the south wing of the Grand Union Hotel and spread with great rapidity, soon enveloping the entire building and now the entire building will be destroyed. The firemen are laboring to save the Grand Union and Columbian hotels which are in great danger. Help has been asked for, and there is great excitement.

The decision was sustained by a vote of 7 to 4

Adjourned

Afternoon Session.

The House was called to order at the regular hour by the Speaker

Mr FIDLER introduced the following joint resolution to repeal the act granting increased compensation to the Judges It was not for them to decide whether the law was constitutional or not the only way to decide that question was for them, if before the proper Court Such was the case with the fee bill which he thought had been sufficiently proved that it was certainly not the intent of the framers of the Constitution that the Judges should be under paid

Mr DUFUR said the question was not one of equity but of constitutionality on whose judgment were they to act The judgment of the people or that of a few persons who were interested in high salaries He proposed to act on the judgment of the people The arguments that they were going beyond their province in discussing this question of constitutionality was preposterous If they were powerless to act in this matter they would be as powerless to act on any other matter that had been dealt with by past legislators He did not wish to deprive a man of his just reward He believed every man was worthy of his hire But he would rather that an individual should suffer through a low salary than that the state should suffer through breaking its organic law by any unconstitutional measure He was sorry for the Judges Justice Lord they must have known on the conditions under which they were elected to office and they ought not to have accepted the position if they were unwilling to abide by these conditions Something has been said about letting the Judges appeal for relief If a Judge should steal with a salary of $5000 it would not be a question whether he would not steal with a salary of $7000 He hoped the Judges would not be led to reduce in the circumstances as that their wives would be compelled to take in washing, or that they would even have to do their own work He was sorry the Judges had to work so hard But in all human life there was hardship and Judges in Oregon must not complain if they were not exceptions to the rule

Mr BRADSHAW stood up upon his own opinion and he formed his own opinion on this matter upon what he conceived to be the strength law of the state The assertion that no lawyer of commerce would not pronounce the law unconstitutional could only be met by the assertion that the law was constitutional But he would say this much in this State the question had been discussed time and time again and in the Hall heard the Law declared that this act was not unconstitutional It was of the Judges were entitled to it with work let the district be more equitably divided but five thousand dollars was quite enough for us

Mr STEPHENS also spoke at some length at this time the act was not unconstitutional

The motion to indefinitely postpone was then put to the vote with the following result

Yeas—Blake Chandler Dulls Fuller Gearin Hogue Hendricks Holman Hill Lee Lewis Shelton Smith Simmons Plymale Ross Scott Upton Vanjasper Wilson Wright, of Jackson Wright, of Union—14

Nays—Bradshaw Brown Bruce Butler Charters Cornell Crawford Curl Darst Dean Dunn Dufur Fleming Gurney Gilbert Hays Johnson (of Benton) Lane Laughlin Joe Mays Matlock Matthew McGrath McClung Noyer Parrish Reed Of Clackamas Reed Of Marion Robbins Rhinerson Rodgers Shelton Simpson Stannard Stearns Steele Stump Watson Mr Speaker—24

So the motion to indefinitely postpone was lost.

The question recurred on the motion to suspend the rules and put the bill on its final passage

The motion to suspend the rules was adopted by a vote of 41 to 15 and by a similar vote the bill passed the House

THE STRAY BILL

Mr STANNARD from special committee reported back the bill relating to estrays with certain amendments which were adopted and on motion of Mr Wright of Union the bill was ordered engrossed for third reading.

REMONSTRANCES

Mr PLYMALE presented a remonstrance signed by 57 citizens of Jackson county against the division of said county which was referred on motion of the speaker to the Committee on Counties

Mr McCORNOD from Committee on Counties reported back the bill amending the act incorporating Josephine county with a recommendation that it do not pass.

On motion of Mr FIDLER the bill was ordered engrossed for third reading.

WOMAN SUFFRAGE.

Mr REED of Marion from special committee presented a minority report signed by himself and Mr Lane reporting by bill the petition as reported in favor of woman suffrage with a recommendation that the bill pass.

Mr BRADSHAW presented a minority report which stated that the city f und that the Legislature had no power or authority to grant the prayer of said petitioners That the relief therein prayed for is in violation of the Constitution and should there fore be denied The minority further recommend that the female portion of said petitioners be peaceably requested to retire to their respective homes and there faithfully and honestly discharge the duties appointed upon them by the laws of their creation (laughter) of kindred species and that they in future will decline from petitioning for or meddling in matters that degrade pure woman hood. The minority further recommend that the male portion of said petitioners be requested to array themselves in apparel suitable and appropriate to the sex that they seek to assume Much laughter

Mr STOTT moved to adopt the minority report

The SPEAKER ruled the motion out of order there being nothing to adopt

The bill reported by the majority was read first time It is entitled

An Act to conform the Election Laws of Oregon to the Constitution of the United States It enacts that no person shall be precluded from voting on account of sex and that women shall be entitled to vote at all elections upon the same terms as men now are

The SPEAKER appointed as the House committee the Messrs Stott and Gearin

ORDER OF BUSINESS

A joint resolution introduced by Mr RIDDLE to authorize the Joint Committee on Ways and Means to employ a clerk was voted down

Mr CLIFFORD introduced a resolution to the effect that no committee clerk receive more than three dollars per day for services actually rendered

Mr FIDLER protested against the fact of reducing the pay of each clerk one cent while Mr BRADSHAW did not think a clerk was worth more than a man but

A motion by Mr FIDLER to lay on the table was lost

A motion by Mr FIDDLER to adjourn prevailed leaving the question as to the pay of clerks pending

CHAMBERLAIN'S NOMINATION REITERATED

Charleston Sept 18—The Executive Committee of Independent Republicans who bolted the action of Chamberlain on the ground of his participation in the frauds and misgovernment ring, the Scott and Moses administration have issued a call for an Independent Republican convention to meet in Charleston Oct 2d to nominate a State ticket

One of the largest mass meetings of colored Republicans ever held in Charleston took place at the City Hall last night, and was addressed by Congressman Rainer and others The following resolutions were adopted with great unanimity

Resolved That we declare it that the renomination of D H Chamberlain for Governor means a continuance of the corruption by which the three last administrations of two of which D H Chamberlain was Attorney General have ruined our people and disgraced our State.

Resolved That we do hereby pledge ourselves to the support of any honest Republican nominated by the present corrupt administration in connection with the past corrupt administrations who may be set in nomination by the Republican party

The bolters will probably nominate Judge D Green against Chamberlain Mention of Green s name during the meeting was received with wild cheering He is a native Republican and is known to have no chance of dishonesty is made, and his election would be satisfactory to the tax payers

The Convention then adjourned, to meet at half past 12 P M

Convention reassembled whereupon the Committee on Resolutions reported as follows

Mr Chairman Your committee beg leave to submit the following resolutions, and recommend their adoption

Resolved, The Republican National Administration has violated the pledges upon which it was elected has squandered the public money has wantonly unprincipled politicians by placing them in positions of emolument and trust, has failed to punish those who have defrauded the Treasury of Immense sums of money has failed to reduce the public indebtedness and lessen the burden of excessive taxation has sanctioned the commission of grave crimes by those placed in authority has used the military forces of the Government to control the States, and has used voters and prevent a free expression of the popular will therefore

Resolved That it is not entitled to the confidence of a people it has so wantonly betrayed

Resolved further That all attempts made to control the action of Federal office holders by the use of the people s money, and the power emanating from them is subversive of the best interests of the citizen and destructive of our cherished liberties

Resolved That we favor any measure calculated to subserve the general interests of the people, and especially those of the agricultural classes who have been so long at the mercy of grasping monopolies that to secure in a great measure this object we favor the early completion of the Seattle and Walla Walla railroad in consequence of our Delegate to Congress his best efforts to secure such aid as may promote that object.

Resolved That we denounce as infamous the law passed by the Last Congress abridging the constitutional rights of liberty of speech and the freedom of the press

Resolved That we cordially invite all honest and patriotic citizens irrespective of previous party affiliations to join with us in an earnest and determined effort for reform

The resolutions were read *seriatim* and adopted

The following was also submitted by the Committee on Resolutions and adopted by a rising vote

Resolved That whereas our present Delegate to Congress Hon O B McFadden has by his perseverance energy and commanding ability accomplished more for the interests of the Territory in his brief term than any former delegate we hereby heartily indorse his acts and tender him our sincere sympathy in this the hour of his illness and distress

It was ordered that a copy of this resolution be properly certified by the officers of this Convention and transmitted to Hon O B McFadden

WASHINGTON COUNTY FAIR.

EIGHTH ANNUAL EXHIBITION OF THE WASHINGTON COUNTY AGRICULTURAL SOCIETY

Fourth Day.

The morning was cool and pleasant the day was bright and warm This being the great day of the Fair week everything favored a large attendance of the farmers of the county and their families The highest expectations of the managers and visitors were not disappointed in this respect. At 10 o clock there were not less than 2 000 people on the Fair grounds representing many of the best farmers of the county their wives, sons and daughters Quite a number of the influential ladies and gentlemen of the neighboring towns were in attendance Portland has some of her influential men present As a popular gathering, of intelligent refined and influential people Washington county may be justly proud of her representative individuals and families present to day at the eighth anniversary of their County Fair

As this was the great holiday of the Fair week little attention was given to anything but what was amusing and entertaining The young people went in with a will for a full days enjoyment The seniors were gratified in seeing the juniors so full of life and joy But the reporter goes for statements of the practical and the useful

SHEEP

Were as well represented in number and blood as any part of the stock, and better, with one exception, than last year

Mr T G Naylor of Forest Grove, exhibited four pens of sheep including French, Spanish and American Merinos In the French Merinos he took a first prize for a one year old buck, one two year old ewe, and a ewe and lamb, and a second prize for a ewe and lamb In Spanish Merinos he got first prize for a year old buck one year old ewe and a two year old ewe He got a second prize for a two year old ewe and another for a year old ewe and lamb

In American Merinos he got a first prize for a two year old ewe and a year old ewe and lamb he got a second prize for a two year old ewe, and one for a ewe and lamb He got the first prize for the best twenty Merino lambs Mr Naylor has a flock of 100 head The fleece of his Merinos averaged, last clip, nine pounds to the fleece and his graded sheep averaged eight pounds There is no scab or disease of any kind in his flock Think of that you farmers that have your flocks composed of scrub sheep that yield an average fleece of not more than four pounds and full of scab into the bargain

Mr Robert Imbrie, near Hillsboro showed three pens of sheep He got the first prize for a Cotswold ewe and one for a lamb, another for the best 25 Cotswold lambs and for the best 10 Cotswold lambs He got a first premium for a one year old Leicester buck, and for a two year old graded Cotswold buck

Mr James Imbrie, near Hillsboro exhibited three pens of sheep He got a first prize for a year old Cotswold buck, a second prize for 25 Cotswold lambs, and the same for 10 Cotswold lambs His Cotswolds averaged 104 lbs to the fleece, last clip He expects they will average 12 lbs next year

Mr A Dudling near Hillsboro got the blue ribbon for a Spanish Merino ewe and a second prize for a French Merino ewe

Mr W A Mills exhibited a two year old Merino ewe

Mr Johnston Freeman, near Hillsboro, got the blue ribbon for two graded Leicester ewes, and a similar prize for the best mutton sheep

THE GRAND PARADE (SO-CALLED) OF ALL THE PRIZE STOCK

Took place at ten o'clock. This would have been a very interesting sight had there been a responsible head present to have directed the movement in the absence of such, it was a comparative failure. All the stud horses and a few of the brood mares that took prizes made their appearance, but no attempt was made to form a parade, they loitered in the neighborhood of the circle intended for the parade in a most miscellaneous manner that produced little effect of a satisfactory kind Mr William Bingham was the only exhibitor that did his part on the occasion. He took his place in the circle and showed his fine stud horse Luther to advantage.

S G Reed Esq had his Clydesdale stud horse, Young Marcus, just imported from Canada and supposed to be the best four year old of the kind ever seen on this Continent, on the Fair Grounds to let the farmers of the county see him also his famous Clydesdale brood mare Glasgow Nell. Both were in prime condition, and were universally admired

THE TROTTING RACE

Was the great attraction of the afternoon It was a special race for any horse mare or gelding that has never made faster time than 3 30, mile heats, best 3 in 5 Entrance $25 the Society to add $25 more

Mr B B Acker entered the sorrel mare Kate Mr Wm Reid entered the black horse Bones Mr John Holton entered the roan horse Blue Dick They drew the positions stated respectively A most satisfactory start was effected at once. For the first quarter they kept well together Blue Dick soon fell considerably behind, and remained so all the way Kate and Bones lapped each other till reaching the home stretch, when each made a great effort for the first place at the winning post, but Bones passed the judges stand first by half a length. Time, 3.24.

In the second heat Bones got the inside track A very good start was effected The positions were much the same as in the first heat for the same distance It was now evident that the contest was between Bones and Kate The latter made steady and beautiful trotting but with all her efforts, Bones came in first by nearly a length, making the time 3.27

A favorable start was made for the third heat Bones and Kate kept side by side to the half mile post, when Kate got ahead secured the inside track and made a grand effort to keep her advantage, which she did and passed the judges stand first, by nearly a length making the time 3.23 Black Dick was distanced and ruled out. Kate improved so much that the general impression began to grow that she would win the race

The start for the fourth heat was accomplished with ease The trotting and relative positions were much the same as in the third heat until after passing the half mile post, when Kate broke this gave Bones such an advantage as rendered it impossible for Kate to recover her ground although she made a great effort to do so The result was that Bones passed the judges stand first by a full length and was declared the winner of the race. The time was 3 18 This was considered the best contested trotting race during the Fair

A contest took place for the best span of horses of all work for a mile, time not to exceed 7 minutes premiums were $10 and $5 Mr J Sewell entered a team of black horses Mr W G Scoggins entered a team of bays, Mr J Watts entered a team of dark bays The first made the mile in 5 02, the second in 5 04, and the third made it in 6 02 The judges examined and tested the teams in a variety of ways and finally awarded the first prize to Mr Scoggins s team and the second to Mr Sewell s team

A dash of a single mile was to take place after the trunk left between Buckskin and another good horse but we did not hear the result

Space prevents us giving to-day, a detailed state of the Pavilion which was well represented in its various departments

SIFT YOUR PAPERS

The Republican editorial article in the *Bulletin* of yesterday was on the subject of the police of this city Some of the views expressed coincide with our own There is no disputing that the present police system of Portland is liable to gross abuses There is no disputing that it has been abused in the one or that it is likely to be in the future But the general proposition to make the entire police force dependent upon the Chief and to make him an elective officer is no less objectionable It is the same thing we had prior to 1870, when we elected the Marshal and he appointed all the policemen and all recollect but too well how it operated then The fact that the Chief is called by another name than City Marshal does not change the principle and will not prevent the same pernicious evils and the same inefficiency Any plan that places the selection of all the peace officers of the city in the hands of such mobs as may be marshaled around the polls of this city on election day whenever there is any considerable inducement offered to them, is essentially vicious and dangerous

The plan proposed by the Independent Convention of this county, and approved by the people at the election is in our judgment as good as any that has yet been presented, but between that plan and the universal election scheme there is room for others which would certainly be preferable to the latter and possibly to the former There is one system already tried here, that is worse than the present, and that is the purely elective one

Proceeding to discuss the power of the Common Council and the Legislature over the fees of officers connected with the Police Court, the *Bulletin* says

The Common Council is to have power to fix the salaries of the Police Judge and Chief of Police This power of course cannot extend to those officials in their capacity of Justice of the Peace and Constable, because the fees of all Justices and Constables must be regulated by General Law, under the Constitution And under the recent decision of the Supreme Court any attempt to regulate these fees by special or municipal law for this city would be held unconstitutional If therefore these fees are to be ... it there must be a General Law for that purpose which shall apply to all the Justices of the Peace and Constables in the State. Such an enactment would be out of place in a city charter

The *Bulletin* does not specify the decision in which the Supreme Court held that the fees of all Justices of the Peace and all Constables must be the same, and until the decision is specified and the language equoted, we must take the liberty to doubt that such decision has been rendered In a recent case the Supreme Court decided that under a law conferring upon the Police Judge the jurisdiction of a Justice of the Peace in addition to his duties as a municipal officer and making no provision for his fees as Justice of the Peace entitled him to charge the ordinary fees of Justices of the Peace for services performed in that capacity, notwithstanding the fact that he received a stated salary as Police Judge But we learn first from the *Bulletin* that it has been decided that different fees for Justices of the Peace cannot be fixed by the Legislature for different localities Just exactly that thing was done by a law passed in 1864 for certain specified localities, and was acted upon for years no one questioning its constitutionality The same is true of Clerks and Sheriffs' fees which were taxed time and again by the Supreme Judges on the circuit, and by the Supreme Court and no question of the constitutionality of the law was made then And to this day, the salaries of the County Judges are different for different counties and are changed by the Legislature *ad libitum* and yet the County Judge is an officer provided for by the Constitution while the very creation of the office of Justice of the Peace is left to the discretion of the Legislature The Constitution will be searched in vain for any provision inhibiting to the Legislature the exercise of the power to fix the fees of Justices of the Peace and Constables upon a different scale for communities differently situated It might be necessary to make the law general by making it applicable to all communities having a specified population, though that is by no means clear We are therefore slow to believe the Supreme Court has rendered a decision such as the *Bulletin* refers to We shall, however, cheerfully concede the fact when the *Bulletin* proves its assertion by quotations from the decision

THE SCHOOL BOOK LAW

During the political campaign of last spring a good deal was said by representatives of all parties about the monopoly of school books in the State It was supposed there was a wrong somewhere It was assumed that by means of the monopoly the people of the State were forced to pay much higher prices for their school books than they would otherwise have had to pay

It seemed not to be remembered that school books generally are copyrighted, and that every publishing house has a monopoly of the books it issues How then is the monopoly complained of to be avoided? That is a question no one has answered definitely The only way possible is by abandoning the uniformity principle in our school system and that would not reduce the price of books, as a comparison of prices paid before the passage of the uniformity act with those now paid will show So we are to give up all the manifest advantages of uniformity solely to terminate a monopoly that is free in practice from all the evils of other monopolies Indeed, when we take into account the fact, certainly not soon forgotten by any that under the old system there must needs be a change of school books about as often as there was a change of teachers in the district thus creating a constant necessity for the purchasing of new books and the casting aside of old ones not yet worn out it will appear, if we do not mistake, that the uniformity plan is actually cheaper than the other We therefore take the liberty to suggest to those members of the Legislature who are governed in this matter by considerations of economy that they examine the subject very carefully before acting

FROM THE CAPITAL

SALEM October 1 1874

THE JUDGES' SALARY BILL

The House this morning has under consideration the bill repealing the Act of 1872, relating to the compensation of Justices of the Supreme Court The debate is spirited.

Chambers of Benton has made a brief speech in which he argues for the repeal of the law first because it is unconstitutional and second because the Republican party has declared for repeal—and here he read the 12th resolution in the Republican platform of 1874

In answer Mr Gearin of Multnomah urged that the Legislature was not the tribunal in which the constitutionality of laws is to be tried that it made little difference to him what a coterie of village politicians at the county seat of Benton county might say and resolve concerning his duty as a Representative He had taken an oath to support the Constitution and the laws of the State of Oregon, and he proposed to fulfill that obligation in his own way and in the manner that would best satisfy his own conscience, regardless of the clamor of platform makers He believed the law increasing the compensation of the Judges was constitutional and defied the gentleman from Benton to produce a single respectable lawyer who would dare to hazard his professional reputation by pronouncing the law of 1872 unconstitutional This debate was continued up to the hour of adjournment

THE INSANE ASYLUM

Like Oliver Twist Salem is crying for more Now it is the Insane Asylum that is wanted It is pretty generally understood that an appropriation for erecting a State Asylum is altogether out of the question But Dr Carpenter, a prominent physician resident here, is now urging before the committee two propositions looking to the removal of the insane from Dr Hawthorne's institution in East Portland to Salem Dr Carpenter's propositions are briefly as follows

1 He will furnish buildings with all the necessary furniture and accommodations as good as those now furnished by Dr Hawthorne, and keep the insane of the State for four years at the rate of $4 75 per patient Or

2 He proposes to erect, upon grounds belonging to the State, to be provided for that purpose suitable buildings large enough to accommodate 200 patients and keep all the insane of the State at the rate of $4 per patient for four years provided that the State shall at the expiration of the four years take the buildings off the contractor's hands at a price to be assessed by a board of appraisers to be appointed by the State

These are the propositions It is impossible to tell what the Legislature will do with them

THE PENITENTIARY

His Excellency has transmitted to the Senate the following message on the subject of economy in the management of the Penitentiary The letter of Superintendent Watkinds is also given

EXECUTIVE DEPARTMENT, SALEM } September 29 1874

To the Honorable the Senate of the State of Oregon

I herewith submit to your honorable body a communication made to me by the superintendent of the Penitentiary, relative to a proposed change in the management and control of that institution

I desire to call your attention to this communication as it sets forth in a clear light the progress which has been made in developing a plan for a self supporting State Prison.

By the details here given it will be clearly seen that by allowing the Superintendent to use the products of the prison farms and to draw the pay for United States prisoners he can sustain the prison with an appropriation of $30 000 per annum or $40 000 for the next two years At the same time all money obtained from leases of prison labor can be paid into the Treasury to be held for the payment of so much of the Penitentiary warrants. This fund would be greater or less according to the degree of rapidity with which convicts for prison labor can be made in limiting a new system during the first year the contract labor should bring $10 000 the outlay of the State would be but $10 000 on account of the prison and if during the second year the earnings of the convicts should be $20 000 the prison would be self sustaining because this sum of money paid into the Treasury would liquidate all the Penitentiary warrants for that year and fully cover the appropriation for the support of the Penitentiary

If these results cannot be fully reached a reasonable approximation can be made towards complete success in the undertaking

The original plan of a self sustaining prison is now but half developed but the most difficult and the most expensive parts of the plan are accomplished If allowed to be worked out I am satisfied the people will be surprised and gratified at the result as well as relieved from taxation on account of the Penitentiary

There are parties now ready to make contracts for labor in the following flax tanning leather making shoe tub manufacturing wagon work and various other industries and the shop room and water power is now sufficient for carrying out these supplementary buildings is required But the authority of the Legislature to enter at once upon the completion of a system projected four years ago and which has been steadily carried forward in its development ever since L P GROVER

Superintendent Watkind's Communication.

OFFICE OF THE SUPERINTENDENT } OF THE OREGON STATE PENITENTIARY } SALEM September 29 1874

To His Excellency L F Grover Governor of the State of Oregon—SIR By reference to Senate Bill No 48, your Excellency will see that certain parties have made propositions to lease and otherwise obtain possession of the Oregon State Penitentiary proposing to keep the prisoners for the sum of $30 000 per year with additions for an increase of prisoners I cannot thank otherwise than duty to call your Excellency's attention to the same that the attention of the Assembly may be called to the subject through your Excellency's official action

In my biennial report on page 7 to your notice was called to calculations based upon the plan of leasing convict labor where in it is stated that allowing or asking no appropriation for manufacture of brick making improvements etc that the prison could be maintained for the next two years for the sum of $60 10 Calculating the number of convicts to average the two years 140 keeping days 305 and counting 300 working days for the year we have an income for the two years of $1 000 to this is also to be added allowance for keeping 11 prisoners taking the past two years as a guide the sum of $6 930 which amount will be increased perhaps to $10 000 also surplus of farm and effect of $1 500 making in all a total of $18 500 as an offset to the appropriation required of $37 500 In this calculation we have omitted an estimate of at least $4 000 for an increase of prisoners over and above an average of 140

In order to better present to your Excellency's consideration and that of the Assembly these facts and estimates we have made a more minute and definite calculation to which we call your attention viz

Salary of Superintendent 2 years at	$3 00	$	600
Warden 2	1 50		300
Deputy Warden 2	1 00		400
Commissary	1 00		1 200
Subsistence of 2 Wardens an I Commissar 4 years at 40 cents each per day			876
Salary of 5 Guards 2 years each at $40 per month			4 800
Subsistence 10 years 5 years each at $1 40 per day			7 300
Salary of Physician 2 years at $1 500			3 000
Medicines etc 2 years			1 000
Allowance for duties to discharged convicts based upon last 5 years' work			1 400
Five hundre l cords wood in the tree which is offered at $ per cord and can be cut and hauled by prison labor and in close to prison grounds			500
Subsistence of convict including food clothing bedding shoes and tobacco based upon four years statistics and upon reductions that can be made in clothing by working prisoners in shops and increased facilities for raising products for subsistence at 30c per day for 5 years			21 900
Making a total of appropriation required for next two years upon this system of			37 976

As an offset against this you have the entire earnings of the prisoners for 2 years as follows

Taking the above average of 140 men and allowing for sickness cooks gardeners and farming hands say 25 men we have 125 able bodied men which can be leased at 50c per day Counting these at 300 working days to the year we have from their labor for 2 years the sum of		$ 46
Less the sum allowed by law for keeping U S prisoners based upon the past years		4 000
Amount of feed and grain in hand [illegible] necessary by reduction of [illegible] that can be sold		
1 000 bushels oats at 40c	$ 400	
2 [illegible] at $1	1	05
Making a revenue each years of		14 005
Or an income per annum of		7

A still further deduction can be made by withholding the ration of tobacco and allowing the convict its equivalent in cash or in some supplementary articles of food

Should the Legislature deem it expedient for the best interests of the State to lease the prison for two years past $1 250 per month or more than the above We also have on hand (described part page 6) brick dirt ready for use costing 2 days labor for each thousand 250 000 grain sacks at $ per yard $1 000 best leather and a large amount of supplies that will be on hand April 1st next for which no provision is made in aforesaid bill by which the State is to be made whole

In case these estimates meet the approval of the Assembly and legislation is had accordingly the present outstanding liabilities should be provided for Also I would call your attention to the propriety of allowing the superintendent the privilege of paying such supplies as can be purchased for cash [illegible] from the labor of the convicts as by purchasing for cash they can be had cheaper than by [illegible] Southern Such is the law in most all the States

In case your Excellency and the Assembly have any fears that these estimates are incorrect I will agree to give the requisite bonds [illegible] for the faithful performance of the foregoing statements

A correspondent from the Twin Mountain House writes Mrs Harriet Beecher Stowe read in the parlor Saturday night Mr Beecher was one of the audience of 300 guests He laughed whenever his sister made good hits She read The Ghost in Captain Brown's House and The Minister's Housekeeper Stories and from Sam Lawson's Fireside took her seat amid a shower of plaudits after the conclusion words If I thought said the Lawson folks wanted to talk about Huldy and me I'd give 'em something with talkin about —*Exchange*

If I thought said the Lawson folks wanted to talk about Elizabeth and me I'd give 'em somethin with talkin about And he did

Speaking of the decision of our Supreme Court in the Holladay custom house cases severely criticised by the Portland *Bulletin*, the Sacramento *Union* says Not only will public opinion in Oregon sustain this decision as just and righteous but it will meet the approval of honest men in all the States and if we are not much in error will be confirmed by all the reputable Courts State and Federal and that of as claimed by the *Bulletin* there was no precedent for such an opinion the Court did well in establishing one

Act on the Defensive

Persons who are subjected to the influences of bad air and unwholesome water to constitute a pure sure out of doors and sudden changes of weather should act on the defensive by imparting to their constitutions the power of resisting such influences The fortifying effects upon the system of Hostetter's Stomach Bitters are simply amazing This stands without them as a preventive of malaria in districts of almost immunity from its attacks although dwelling in regions where they scourge is not prevalent Artisans and laborers who occupations keep them in the open air find in the Bitters a complete safeguard against the chicks of exposure Travelers testify that by commencing the use of the Bitters on every change into a locality containing only vegetable ingredients as agreeable stimulant each becomes tonic and corrective and a sanitary protective it is not urged that the Bitters should be the sole reliance for a remedial agent

DON'T WAIT FOR A CARD to be sent away of the for your rent and impossibly because printed and illuminated for in the newspapers you might as well Burnett's Cherry Pectoral for consumption in any of its forms you cannot use it too often Rather clear it off at once by using Dr Jayne's Expectorant which is a remedy for bronchitis, sore throat and pneumonia, expectoration as well as for healing and strengthening the surfaces of the throat and lungs

When food is taken it excites the portion left undigested by the gastric juice in the intestines and they salivate an chemical property which arrests further digestion and fermentation will ensue to the annoyance of the whole system Ayer's Cathartic Pills remove the indigestible matter which is the source of the trouble and by their action on the liver restore the patient to perfect health

Save the Horses!—The disease which has recently afflicted the horses has humanized. Like everything we feel how much it is to forego their use We therefore call attention to Sheridan's Condition Powders which are the Mexican Mustang Liniment Dispensaries they will prevent the disease if given a few days before the coming on of cold weather and if the disease has already developed it will relieve it Sheridan's Spring Salt scratches and the following harness goods in the market never fail to give satisfaction This useful information can be found in every drug and country store in the land

The effects of Hagan's Magnolia Balm upon the human face are truly magical It removes from the cuticle the tan freckles pimples and discolorations and renders the skin pure soft and beautiful Such is the effect that every lady will use it after once using it Sold by druggists and fancy goods dealers everywhere

Steeplechase Headache.—Thousands are now watching the race and are in danger of sick headache Ayer's Cathartic Pills are now in great demand for the relief and cure of this distressing complaint Sick headache will be prevented if one pill is taken at the first symptom of disorder Three grain doses are sufficient in most cases to restore the system to a healthy action Ayer's Cathartic Pills are purely vegetable and contain no mercury or other mineral substance Their sugar coating preserves them in any climate and renders them pleasant to take They are the best purgative medicine known and are adapted to all the purposes of a family physic

Neglected Coughs and Colds.—Few persons realize the importance of checking a cough or curing a cold in its first stage that which if neglected would yield to Brown's Bronchial Troches often fastened upon the Lungs

THE OVERLAND ROBBERIES

(From the S. F. Call.)

The audacious freebooty occurring on the Central Pacific Railroad is becoming literally well exemplified by the passengers who are victimized or are witnesses of the outlawry indeed. The following narrative is sufficiently explanatory of itself. If the men who fleeced the nation of forty million dollars, and then fleeced the States and counties separately for the benefit of their own pockets, cannot do anything to stop these practices it is high time the people who contemplate travelling along the overland railroad knew of the exposures to which they are subjected.

The Devoy as well known resident of San Francisco just returned from a visit to Europe reported to the police of the yesterday the particulars of a robbery which was witnessed by himself and a score of passengers. When the train stopped at Elko on Tuesday last a passenger named Dr Bisk accompanied by an invalid wife, got out to procure a cup of coffee for her. When he entered the refreshment booth and took out his purse it was immediately snatched from his hand. A portmanteau which he carried in his hand was then forced and broken open before his gaze and the contents, embracing all the money he was possessed of and his wife's jewelry including a valuable diamond set were taken out. The robbers then took his shirt studs and gold watch and chain. During the proceeding, one of the three engaged in pinning the victim to the floor with a pistol to his head and threatened to blow his brains out if he resisted. On observing the outrage other passengers rushed out of the place, and Mr Devoy shouted loudly for assistance from the authorities. He was approached by a person who represented himself to be an officer of the Central Pacific Railroad Company, and inquired what he was making a disturbance about. When required to go to the assistance of passengers who were being robbed this model officer admonished Mr Devoy if he persisted in interfering with what did not concern him he would be taken care of and he was even compelled to get aboard the train again. The ruffians engaged in this robbery boarded the same train with their victim and continued on to some station this side of Elko appearing to be cheek by jowl with the employes of the Railroad Company. Subsequently passengers who ventured to express their indignation at the occurrence were approached by the same thieves, or their confederates and cautioned to keep their opinions to themselves if they did not desire to be overhauled in the same way. These facts are attested to by a number of responsible persons in addition to Mr. Devoy, whose names were furnished at the police office and similar narratives of outrages on the railroad are constantly received in which passengers complain of being robbed of sums ranging from $100 to $400 and every article of value they may have upon their persons.

CHARITY ROSS WITH HIS MOTHER

THE STORY OF THE KIDNAPING AT LAKE MEAD—A FAMILY HISTORY

(Corr. Reading Eagle.)

GERMANTOWN Sept 14.—The Ross case like all things transient, is gradually disappearing from the public mind but before giving it a final good bye allow me to offer you a theory which thus far I have not seen presented. I am a neighbor of Christian K. Ross and the neighbors have our thoughts and opinions on the subject of the child's disappearance which I think should be presented to the world.

About ten years ago, when Christian Ross was making his mark and when his business was in the most prosperous condition he married a Western lady, of a good family and very wealthy. He had two children of the marriage, Walter Ross and Charles Brewster Ross. For a long time this was one of the happiest families in all Philadelphia but a few years ago Ross began to lead the life of a debauchee he sought other company than his wife's his business began to decrease, and he became a bankrupt. To a refined and delicate woman like his wife this was a crushing blow and she fled from the man leaving the children in his care, and sought the protection of her friends. To my knowledge no divorce ever took place between the parties and a short time after the flight of the wife another woman took her place in the family, who still occupies it.

The following is the theory of those who know the family, and who are acquainted with Ross personally.

Some months before the kidnapping Mr Ross received letters from the first and only wife, asking and demanding the children. It will be recollected that even upto this time he had refused to show any of the letters he received, with the exception of the blackmailing note, and it will also be borne in mind that the attempt was made to steal both the children. It was not until three days after the kidnapping that the fact was made public, and at that time the child was safely in the hands of the mother or her friends as the theory of the whole country have joined in the pursuit and when the carrier left, the robbers were entirely surrounded. A party of recruits left at midnight for the scene of action, and it is probable that the party have all been captured or killed by this time.

ARRESTED FOR LIBEL.—Augusta Me Sept 21 Alden Sprague and Howard Owen of the Kennebec *Journal* were arrested this afternoon on a criminal process charging them with maliciously libelling Gardiner Yost. Reg resentative elect from this city in a leading article in the *Journal* of this date. They gave bail in $1,000 each for appearance at the October term of the Supreme Judicial Court.

Col A G Johnson has received the appointment of Land Commissioner of the Atchison, Topeka and Santa Fe Railroad.

The condition of our local money market is not to undergo any change from the date of our last report. The general position of matters in this department however is owned to a greater degree of closeness in transactions though the monetary supply is still great. Interest and at this season of the year and rates in the open market are lower than ever before. Regular customers are accommodated freely at the bar as upon the customary terms but the amounts seeking investment have materially somewhat during the past month. What borrowers at this time do not making very extensive calls on the market as they are unable to make any profitable use of current rates.

The talk about farmers losing their own shipping, is likely to culminate in active steps in the course of a few days and the bark Scotia will probably go on the berth early next week under such arrangement and will have quick despatch. Other vessels will follow but the number now mentioned will be able to carry but a small portion of the surplus in the State. The impediment will be to increase the demand for funds as many require an advance on their shipment which will have to come from the cap tal of the country. The terms upon which the chipments are to be will probably be promulgated in a few days.

The merchants and manufacturers of our city as far as we can learn are not taking any very active interest in the coming State Fair. By a competent exhibit on of their goods and wares as possible they would not only add to the interest of the Fair but it would prove a benefit to the business community in the increase of trade. It will show to the large number of visitors who will be idle to be there that they can purchase goods and supplies as cheaply in Portland and more conveniently than by sending abroad for them.

About Wheat Estimates

A number of British writers have recently published extensive estimates of the requirements of the wheat markets in England during the current year. Among them Mr Jackson estimates that the world outside of Great Britain will have 88 000 000 bushels of wheat to sell while the latter will have to buy only 61 000 000 to 72 000 000 bushels. He predicts a serious decline in the price of wheat and reckons the amount that will be saved to Great Britain by this decline at $55 000 000.

Mr Delmar a leading statistician of the United States criticises the above estimates of Mr Jackson in the *Iron Ocean* and objects to accepting the estimates of the wheat crop of the United States as correct when we do not know what is forthcoming much less what the surplus will be and thinks that he has forgotten the famine in Turkey which is occurring to the *Times* of August 11th was at it raging when he talks of the exportable wheat surplus of that country. Delmar says that assuming the crop of breadstuffs in the United States this year to be large and leaving the conclusion open to be defined by the movement of grain crops of continental Europe and estimating the current British wheat crop at 92 500 000 bushels the demand for British consumption at 126 000 000 bushels and the probable imports to the United Kingdom at 92 500 000 bushels the conclusion is that the United Kingdom would import grain from the United States during the ensuing harvest year to the amount of 69 000 000 bushels.

Home Produce Market

WHEAT.—The movement at present is dull as a majority of the holders seem indisposed to sell at current rates and most of that to reach here within the next week will go into storage or be shipped on account of the farmers. We hear occasionally of some who prefer to sell at $1 35 to taking the risk of shipping and that figure is the quotation furnished here at this time.

FLOUR.—The two vessels chartered to go to China will carry considerable quantities of superfine which is now being purchased in this market at $4 75 @ $5 per bbl for large lots. Country brands are obtainable at $4 25@4 50 @ $4 75@5.

OATS.—Receipts are slightly increasing and prices for choice are dull at $1 40 @ $1 45 per bushel, in for large lots. These quotations include sacks.

BARLEY.—Quotations are firm at $1 40@1 45 for choice Chevalier and $1 30@1 35 for common.

FEED.—The supply is larger and prices are drooping. We quote at $12@13 per ton for screenings $18 50 for shorts and $18@20 for chops and middlings.

HAY.—The market is fairly supplied at $20@25 per ton for Timothy, loose from wagons, and $10@11 for baled.

POTATOES.—The supply is large and sales are often made with difficulty. Some good varieties are sold at 40 cents but best are fairly quotable at 40@50 per bushel.

ONIONS.—4 bolts yellow $1 40@1 60 @ $1 100 lbs common $1@1 25. Receipts are moderate to the demand.

FRUITS.—Ripe fruits in season are plentiful and apples are quotable at 50@60c @ box; plums 60@75c @ peaches 80@90c.

DRIED FRUITS.—The demand is fair for apples at 3@4c @ lb, plums with pits are quotable dull at 2c and pitless at 4@5c @ lb.

BACON.—The receipts at this point during the past week have been small and the requirements have all maintained. Orders from the north have been quite large, and consumed most of the surplus at hand. Quotations are 10@11c @ lb for choice shoulders 13c for hams and sides 12½c.

LARD.—We quote fresh Oregon in tins and kegs at 11@12c @ lb.

BUTTER.—The receipts are more abundant and prices weaker at 20@25c for fancy print 20@25c for choice roll 20@25c for good and 15@18c for common.

Cheese.—With a moderate supply from our State dairies prices are steady at 16@17c @ lb jobbing rates.

EGGS.—Receipts are increasing, and quotations are weak at 25@27c @ dozen with prospects of a decline to 25c.

CHICKENS.—Large lots have come to hand this week, and prices have ruled low. We quote to day at $2 75@3 for common lots and $3@3 50 @ dozen for choice.

DRESSED HOGS.—Quotations are nominal at 6@6½c @ lb.

CATTLE AND SHEEP.—Choice beeves on foot quotable at 5c @ lb common 4@4½c.

HIDES.—Unblemished are quotable at 6@7c @ lb for dry and 6@7c for green cattle; kips 5@6c.

WOOL.—Advices from abroad indicate a fair price for the fall clip which will soon begin to come in. Quotations at present in our home market are nominal at 30@35c for common and 36@38c @ lb for choice.
